

# Oxford Conference Centre

Start Date: July 2007  
Completion Date: June 2009

Haysham Ltd were involved from an early stage of this project and therefore able to contribute full design and build services to develop this new multi-purpose commercial venue.

In addition to conferences, this new centre is suitable for all manner of meetings, wedding receptions, product launches, exhibitions and any other events, ranging from a boardroom meeting for 20 personnel to a high-profile presentation for up to 250 delegates.

The project was conducted in three phases and upon completion offers controllable lighting systems, Internet access, extensive AV multi-point video conferencing and catering facilities.

Care for the environment was a major consideration during the development of this project so that now, thanks to the implementation of energy-efficient systems, the Oxford Conference Centre is a major green venue.

**Electrical Value: £520,000**
